Our movement is taking shape in Amherstburg with partnerships including Amherstburg Community Services, Amherstburg Community Church and Assisted Living Southwestern Ontario (ALSO). WECCC is calling this the Amherstburg Hub. This hub is working hard to recruit volunteers, provide training and to ensure that Amherstburg is equipped with tools developed by WECCC to serve the community's most vulnerable and those who want the extra support.

VOLUNTEERS WANTED

Our WECCC team is looking for some dedicated volunteers to help support our members. When you volunteer with us you benefit in more ways than one! Learn new skills. Be part of a movement that aims to create one of Canada's most compassionate communities. Become a team player. Improve critical thinking and problem solving. Gain real world experience and network! WECCC is looking for drivers to take members to and from appointments, coaches to make friendly home visits, event planners and volunteers to conduct surveys with people. HEALTH TAPESTRY

Health TAPESTRY is a health research project led by McMaster University's Department of Family Medicine in which WECCC has been a partner since spring 2019. Nearly 30 people have volunteered with the program since we started home visits in October 2019. Our dedicated volunteers have conducted approximately 230 home visits to seniors in our community! We are excited to be more than halfway through the study. We also would like to thank the hardworking teams at Harrow Health Centre and Windsor Family Health Team for their role in the program and their incredible support of innovative ways to improve healthcare for seniors in Windsor and Essex County.
